- Practical case studies

Within this structure, the "Exp Group" or experimental section introduces innovative question types designed to test deeper understanding and application of concepts.

The Role of the Exp Group in the CIMA F1 Examination

What is the Exp Group?

The Exp Group, short for "Experimental Group", is an integral part of the CIMA F1 exam designed to evaluate new question formats, assess their effectiveness, and enhance the testing process. These questions are not counted towards the candidate's final score directly but are tested alongside scored questions. The insights gained from these experimental items help CIMA refine future assessments.

In some instances, the Exp Group features:

- Interactive simulations
- Case-based scenarios with multiple decision points
- Innovative question formats that mimic real-world financial situations
- Adaptive questioning that adjusts difficulty based on responses

Purpose and Benefits of the Exp Group

The inclusion of the Exp Group serves several purposes:
